

---

The BuKu is a free educational ISO for you to try your hand at developing courses and apps. The latest version of the software is 3.0 and it offers 500+ lessons, 50+ projects, and 20+ levels. There are also loads of other features such as: custom design for learning paths, options to import your own content, and an integrated editor and learner feedback tool. Are you thinking about making a course or app that teaches something? Learn how to develop content with the BuKu today! You will be able to introduce personalized features into your course or app as well as share your work with others by publishing it on the web. You will also get a fully functional version of the BuKu, which you can use to develop your course or app. This software is free to try out and is available in your public repository on GitHub for anyone to download and use. For more information, please visit homepage: <https://buku.com/>
