Rento Fortune VR Crack Serial Key

Download >>> http://bit.ly/2NLewOs

About This Game

Rento Fortune VR is online **multiplayer** business dice game. It is board game for 2 to 6 players.
Trade lands, build houses, win auctions, roll wheel of fortune, risk in Russian Roulette and most importantly - have fun.
Obtain monopoly over the game board and bankrupt the other players in order to win.

The game is live **MULTIPLAYER** so you can play with your friends on Steam and family remotely and also you can play versus players on our website.

You can play the game in 3 modes:
-ONLINE (vs real people live) and **vs your Steam friends**
-SOLO (versus AI robots)
-Pass 'N Play (Pass the same HMD device to others)

As this is Virtual Reality version of Rento, you will be able to experience the game as you are playing on the board itself.
You will have the chance to spin the "Wheel Of Fortune", walk and teleport around the board, interact with the player tokens (throw them around), go physically in the jail and even shoot with the Russian Roulette.

Good luck!

HOW TO PLAY ?

The game is super fun in VR. I'm long time Rento fan and I can say to spin the wheel of fortune by myself was one of the best feelings. Also the Russian Roulette is super cool and the raining money when you get high rent.
Be able to throw other pawns off the board is also cool.
You get the chance to meet Kim Jong Un in person too :D
The only downside I saw was not always working X buttons for land rentals panel, but it is not big deal.
I definitely recommend this game, especially if you are Monopoly fan. A few control issues with building up housing banks, and jumping around on teleport can be difficult. A center reset wouldn't be difficult, and would solve the issue.

Not an all in VR port, everything is done with clicks. That'll disapoint the purists, but keeps it simple for those that can't get to grips with the complexity of Table Top Sim's controls.

The game is nicely scaled, big bright board. A good selection of custome options, and has full multiplayer cross platform play with mobile devices leaving you with no shortage of games.

While i normally wax lyrical over VR multiplayer experiences because of the social atmosphere they create, be aware Rento isn't that online.
